

SERMAT recruits Electronics technician

Ref. 24081201 - SERMAT Toulouse - August 12, 2024

Passionate about electronics and curious about new technologies, you demonstrate rigor, methodology and autonomy in carrying out the tasks entrusted to you.

Company description :

The NEUVESSEL group (more than 400 employees), which operates nationwide, particularly through its companies in Nanterre (92), Chabris (36) and Castanet Tolosan (31), develops and produces electromechanical equipment (servo-actuators) for aerospace and military applications.

SERMAT Toulouse
Z.I de Vic – 5 rue de la technique
31320 CASTANET TOLOSAN CEDEX

Position type :

Permanent employment contract

Salary :

Depending on background and experience

Location :

SERMAT Toulouse

Job description :

Reporting to the department manager and interacting with the laboratory's engineers and technicians, you will be responsible for :

- Adjust and test production electronic boards (production & after-sales phase).
- Design and produce test equipment for new electronic boards: schematics, wiring diagrams, test procedures (R&D activities).

Profile required :

Knowledge and skills are required in :

- Knowledge of classic electronic circuits: AOP, comparator, MOSFET, TTL...
- Use of metrology equipment: multimeter, digital oscilloscope, GBF.
- Careful wiring of prototyped wrapping/veroboard boards.
- Meticulous production of enclosures according to front panel and wiring plans.

Experience required :

sermat
